

## FAIR PROPOSITION TO BE DISCUSSED THURSDAY

Plans For Improvements at Springbrook to be Presented at Mishawaka Meeting.

According to the prospectus which was presented to the proposed St. Joseph Fair and Amusement association which will provide for both a city amusement park and a county fair grounds, a coliseum, a half-mile race track and a 220-yard straightaway track, a live stock pavilion and a concrete grandstand and to be some of the leading features. E. P. Dailey, manager of Springbrook park and who is at present boosting the joint amusement park and fair grounds proposition Tuesday gave an outline of the prospectus.

The coliseum according to plans, is to provide first a place for the holding of conventions. It will be of suitable dimensions to adequately care for all delegates and visitors to all state and local meetings that come to South Bend. Second, it will furnish space for all kinds of manufacturers and jobbers displays. Third, it will be the main exhibition place for county fairs. The half-mile track will provide for horse races, automobile races and motorcycle runs, in addition to other contests that require a long run. The 220-yard straightaway will provide ample distance for all contests that are part of big athletic meets both for city and county.

The pavilion will be primarily for the exhibition of fancy live stock during a county fair.

The concrete grand stand will be built overlooking the race course and athletic track.

The whole is to be surrounded with a high, ornamental iron fence with an appropriate entrance. All ground not in immediate use for amusement and fair purposes will be converted into a beautiful park by expert landscape gardeners.

According to Mr. Dailey the proposition is meeting with enthusiastic support both in South Bend and Mishawaka. A meeting of the committee of 15 now in charge will be held Thursday night at the Mishawaka hotel to lay the scheme before the Mishawaka business men. Mr. Dailey stated Tuesday that similar propositions have met with success in Indiana cities. Annual dividends of from 10 per cent to 25 per cent have accrued to stockholders. The Fort Wayne association was cited as an instance. This organization during 12 years paid from six to 10 per cent dividends annually and at the end a 210 per cent dividend was distributed.

## LABOR AGENTS CONSIDER BID FOR PICKLE PICKERS

Employment Bureau and Trustees' Office Given Opportunity to Deal in Futures.

That the outlook for the labor situation is picking up was evidenced Tuesday morning in the neighborhood of the office of the state free employment bureau where interest centered around a call for pickle pickers. Not having any pickle pickers on his list of the jobs, Supt. Murphy picked up the call for pickle pickers and picked his way across the alley to the office of Gus Klingler, township trustee, where there ensued a brief conference on the question of picking pickles.

The call for pickle pickers came from Albion, Mich. This gentleman wished to know how many pickle pickers could be supplied for August and September. He said that a pickle picker could get a share of the crop which would net him at least \$1.50 a day.

After fully considering the question of pickles and pickle pickers it was decided by Murphy and Klingler that whereas there was an abundance of prospective pickle pickers on hand now yet they could not certify positively as to how many pickle pickers there might be to pick from when the pickle picking season came around, for at that time many of the prospective pickle pickers will have been picked for other work.
